

PACKAGING AND RETAIL SOLUTIONS FOR THE WINE INDUSTRY

OUR SOLUTIONS FOR WINE PACKAGING

PROMOTIONAL PACKAGES

Designed to enhance your brand impact and help your products stand out on retail shelves, our promotional boxes are easily customizable in order to respond to your promotional requirements.

Made from sturdy material, the fully recyclable and easy-to-assemble promotional boxes serve as packaging for luxury products, gift items and promotional bundles.

They are delivered flat and can be easily assembled from single or multiple pieces.

FEATURES

- Fully recyclable
- Easy to assemble
- High-resolution graphics printing
- Available with or without paper, plastic and rope handles

 Small promotional quantities can be accommodated

STANDARD TRANSIT BOXES

Our standard transit boxes are customized in dimensions and printing. They can be made from single or double wall corrugated material depending on storage requirements and transit distance. Different types of inserts to protect the bottles can be offered and designed according to each need.

FEATURES

- 100% recyclable
- Strong, lightweight material
- Can be supplied printed or unprinted
- Available in single, double, or triple-wall boards
- Supplied flat for more stacking space and reduced storage cost

 Small promotional quantities can be accommodated

BAG IN BOX

The bag-in-box is an ideal solution for extending the shelf life of wine: the flexible shape of the bag prevents oxidation while dispensing. The outer box reduces production costs and lowers spoilage and breakage risks.

FEATURES

- 100% recyclable
- Supplied flat for more stacking space and reduced storage cost
- High or standard resolution printing available, with bespoke graphics, increasing brand recognition
- Comes with corrugated or plastic handles for easier transport
- Available with a side tap or top tap

POP/POS DISPLAYS

Our displays are designed to help maximize the impact of your promotions and build brand and product awareness in the retail environment and at events. These free-standing units are supplied flat with an assembly manual.

They can accommodate a combination of various parts: a large eye-catching header board, a water-resistant base, multiple shelves, leaflet dispensers, metal hangers, and more.

Our innovation center can work closely with you to develop attractive designs and guarantee maximum impact.

FEATURES

- 100% recyclable
- Build brand and product awareness
- Supplied flat with an assembly manual
- Available in various structural designs
- Suitable for both short and long-term promotions

Small promotional quantities can be accommodated

PROTECT THE ENVIRONMENT. RECYCLE YOUR PACKAGING.
